## Vis-à-vis

### Seat / Seduta

Vis-à-vis is a light and maneuverable stool made entirely of natural or heat-treated cork.

It can also be used as a small side table. Removing a slice from the cylindrical body creates a curve that has the same radius as the base. That means one piece can be linked to another indefinitely, even creating a circular motion. That same curve also allows two people to sit comfortably facing each other on two stools.

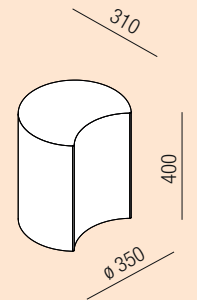

Like Rendez-vous, the Vis-à-vis stool too has been designed to be water-resistant for an extremely wide range of uses.

Vis-à-vis è uno sgabello leggero e maneggevole, interamente in sughero naturale o tostato.

Un elemento utilizzabile a piacere anche come tavolino da appoggio. Eliminando uno spicchio dal corpo a cilindro si crea una curva che ha lo stesso raggio della base. In questo modo si può accostare ogni elemento all'altro all'infinito e comporre, se lo si desidera, anche un movimento circolare. La stessa curva permette a due persone di sedersi su due sgabelli e stare comodamente l'una di fronte all'altra.

Come Rendez-vous, anche lo sgabello Vis-à-vis è pensato per funzionare a contatto con l'acqua per una gamma di utilizzi estremamente ampia.
